

Boys & Girls Clubs of America

We understand the Boys & Girls Clubs **REQUIRES** background checks on all volunteers who have direct contact with children. This requirement includes a name-based background search that verifies the individual's identity AND any legal aliases the person may have used. VeriScreen provides both of these for every person using their exclusive Person Search Plus™ search.

PERSON SEARCH PLUS™

All criminal records are filed by name and DOB **only** - No social security numbers! Many records entered into databases have NOT been checked for name spelling, DOB accuracy, or records by legal aliases. Therefore, searching by an exact name and DOB can omit numerous records for the same person. Person Search-Plus™ addresses this issue by matching & verifying all name variations, legal aliases, and DOB variations for every individual. Person Search-Plus provides a more comprehensive background check by finding and verifying all hits retrieved from variations, aliases and DOB discrepancies.

DATABASES AREN'T ENOUGH

VeriScreen uses the most current and well indexed criminal database available (551 million court cases with dispositions), there are still ENORMOUS GAP in records! Over 38 states no longer or never have sold data in mass to database vendors. In addition to data base searches, VeriScreen will include county-level searches to get ALL the records. Our researchers retrieve ALL real-time records straight from the courthouses! Since most arrests do not result in incarceration, county-level searches reveal significantly more accurate records pertaining to one's background compared to a database search...even the most well-established databases.

Recent Regional Club Study

In March 2016, we conducted a pilot study with a Boys & Girls Club in Sioux City, IA. We demonstrated that VeriScreen attained 50% more hits than their current provider, while delivering an overall turn-around-time (TAT) of less than 1 day!

- Removes sensitive personal identifiables
- Application uploaded in real time

Or

QUICK APP PRO

- Integrated with your current software
- Volunteer completes all forms ONLINE
- Customized for your club
- Applicants can easily pay by credit card

Your People Say...

"Our club recently made the decision to transition all of our background screening for both our employees and volunteers from First Advantage to VeriScreen. We have consistently seen additional data from VeriScreen that was not being picked up by First Advantage, along with very impressive turn-around-times of less than one day! In the first 77 records that were checked VeriScreen found 50% more hits than First Advantage. The bottom-line is that our Sioux City Club is getting a lot more information faster for less money when it's all said and done."

Eldon Bensen, CEO
Boys & Girls Clubs of Siouxland
